HOW WOULD YOU LIKE TO LIVE ON $373* A MONTH AFTER RETIREMENT? UNFORTUNATELY, A LOT OF PEOPLE DO.

When you look at the cost of living today, $373 is not a lot of money. But that's the average benefit paid by Social Security today, and many people actually receive a lot less. Needless to say, living on Social Security by the time you retire may be close to impossible. It makes sense, instead, to plan for your retirement now. The best way to start is with a Central Fidelity Individual Retirement Account (IRA). Not only is our IRA a good way to guarantee a comfortable retirement, but it can also cut your annual tax bill now. And almost anyone can have an IRA, thanks to new tax laws. Even if you participate in a pension plan at work, a Central Fidelity IRA allows you to shelter as little as $100 or as much as $2,000 a year of earned income from current taxes.

A CENTRAL FIDELITY IRA NOW EARNS:

13.34% ANNUAL RATE

14.02% ANNUAL YIELD

Your IRA investment earns a competitive, tax-deferred market rate of interest. And, if you follow a consistent deposit program, your Central Fidelity IRA could actually make you a millionaire by retirement. (Take a look at the chart.)

Talk to a Central Fidelity Specialist about the new Central Fidelity IRA. We'll show you how to really live at retirement.

CENTRAL FIDELITY'S INDIVIDUAL RETIREMENT ACCOUNT

AGE WHEN OPENING YOUR IRA	BY AGE 65 YOU WILL HAVE DEPOSITED THIS AMOUNT (AT $2,000 PER YEAR)	BY AGE 65 YOU WILL HAVE ACCUMULATED THIS AMOUNT**
20	590,000	55,945,978
25	80,000	3,077,622
30	70,000	1,589,194
35	60,000	816,829
40	50,000	416,038
45	40,000	208,063
50	30,000	100,142
55	20,000	44,140
60	10,000	15,080

**This assumes investing $2,000 per year at the first of each year until age 65 at a 13.34% interest rate compounded quarterly to yield 14.02%. This is our rate and yield for the first quarter, 1982. The amounts shown are projections, and are not guaranteed. Deposits are made into an IRA month, automatic, with removable account which earns an interest rate that is compounded and adjusted quarterly. The rate and yield we've indexed to the coupon equivalent yield for one-year Treasury Bills based on the auction average at the last auction prior to the close of the quarter. Substantial penalty for early withdrawal.

*Based on the average Social Security retirement check.

He was called away so suddenly
Without a last goodby
only God in Heaven know the reason why.
